Re: Events from the night of May 1st

Dear Brush High School Community,

On Friday, May 1, a large group of young people participated in a game called "Fugitive" in the town of Brush. We are aware of what took place that evening and want to address community concerns directly.

Brush High School did not sanction, condone, or assist this activity in any way. Because it occurred off campus and outside of school hours, this is a matter for local law enforcement rather than the school.

We strongly condemn vandalism and destruction of property of any kind, and we recognize that this caused real disruption for families and businesses in our community. If your property was impacted on May 1, please contact the Brush Police Department to file a report.

We remain committed members of the Brush community and will continue to work alongside the Brush Police Department as this matter is addressed.

Respectfully,

Bradley Bass  
Principal  
Brush Secondary Campus

Mission: Safely engaging every student, everyday, in every classroom.

Vision: Every student will be valued, supported, and empowered to become responsible and productive citizens.
