Welcome to the world of acting! Whether you're completely new to the state or just curious about what goes on in an acting class, you're in the right place.Acting is all about discovering new sides of yourself, learning to communicate in new ways, and having fun while doing it. If you're ready to dive in, let's talk about the essentials you'll experience in an acting class: developing characters, using your voice and body to bring them to life, and interacting with props and scenery. Acting is a journey of discovery, and this acting class is the perfect place to start. Whether you're learning how to develop a character, use your body and voice to communicate emotions, or interact with the world around you, every step will help you become a more confident and skilled actor. So, embrace the process, enjoy every moment, and remember: acting is all about play. The stage is waiting for you! We will act out stories, create costumes, and design scenery to bring our stories to life. The week will end with a performance for our families.
